Re: FOIA request; correspondence between Public Service Commission and Justice companies

Dear Mr. Ward:

Please consider this the initial response of the Public Service Commission to two separate Freedom of Information Act (FOIA) requests you made, and the Commission received, on September 3, 2019.

First FOIA request

The first FOIA request related to correspondence written or received between the Commission, individual Commissioners, Commission Staff or other Commission representatives and companies owned or controlled by James C. Justice II, James C. Justice III, or Jillian Justice.

Copies of your first FOIA request were distributed to all PSC Staff involved in Commission activities relating to the Coal Resource Transportation System (CRTS) with a request that they provide copies of any information in their possession identified by your request. Correspondence between the Commission Transportation Division and the Justice-owned companies is voluminous. The Transportation Division Staff is diligently identifying and collecting the correspondence and needs additional time due to the volume. I anticipate that we will complete collection of responsive documents from the Transportation Division by September 16, 2019, at which time we will provide them to you.

Letter to Ken Ward, Jr. September 9, 2019 Page 2

Correspondence between other divisions of the Commission and the Justice companies is attached. Emails are duplicated in many instances because we are providing each staff member's copy of the correspondence.

Documents filed in the following formal proceedings are also responsive to your first FOIA request. Copies of these case documents are not provided in this response because they are available to you on the Commission website www.psc.state.wv.us by clicking "Case Information" on the left column, then clicking "Case" on the left column on the next page, typing the six digits and the dash of the case number in the Case Number box and clicking "Search", and finally clicking "Activities" on the right side of the next page:

18-1073-COAL-SC-GI	Bluestone Industries, Inc.
18-1074-COAL-SC-GI	Chestnut Land Holdings, LLC
18-1075-COAL-SC-GI	Kentucky Fuel Corporation
18-1076-COAL-SC-GI	Nufac Mining Company, Inc.
18-1077-COAL-SC-GI	Orchard Coal Company
18-1184-COAL-PW	Chestnut Land Holdings, LLC

Second FOIA request

Your second FOIA request asked for a copy of the CRTS violation data, in electronic Excel format, that the Commission provided to the Legislative Auditor as mentioned on pages 6-7 of the Legislative Audit Report titled "Post Audit Report on the Coal Resource Transportation System" dated July 23, 2019. That electronic data is included in this response.

Sincerely,

Yessica M. Lane, General Counsel

Enclosures

cc: Connie Graley, Executive Secretary

CASE NO. 17-5077-COAL-NOV

BLUESTONE INDUSTRIES, COAL RECEIVER, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 15, 2017, the Coal Receiver, Bluestone Industries, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the thirty (30) shipments, totaling \$3,000.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On May 24, 2017, the return receipt card for the NOV dated May 15, 2017, was filed herein, showing a date of delivery to the Coal Receiver of May 22, 2017.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

A review of the Commission's records indicates that, to date, the Coal Receiver has not paid the administrative sanctions set forth in the May 15, 2017 NOV, totaling three-thousand dollars (\$3,000.00).

BLUESTONE INDUSTRIES KEYSTONE CLEANING PLANT P.O. BOX 1085 BECKLEY, WV 25802

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an inspector of the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal shipments and have failed to report shipments to the Public Service Commission of West Virginia. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Thirty (30) shipments of coal were not reported by the receiver, in violation of \underline{W} . Va. Code 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$3,000.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

FINAL 7/28/2017

Entered: July 18, 2017

CASE NO. 17-5089-COAL-NOV

BLUESTONE INDUSTRIES, COAL SHIPPER, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 26, 2017, the Coal Shipper, Bluestone Industries, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 for each of the twenty-five (25) shipments, totaling \$2,500.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On June 7, 2017, the return receipt card for the NOV dated May 26, 2017, was filed herein, showing a date of delivery to the Coal Shipper of June 6, 2017.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

NUFAC MINING COMPANY, INC. **K2 PREP PLANT** P.O. BOX 1085

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an inspector of the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal during the period May 13, 2017 through May 16, 2017 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Twenty-five (25) shipments of coal were not reported by the receiver, in violation of W. Va. Code 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$2,500.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

> Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

Entered: August 17, 2017

FINAL 8/27/2017

CASE NO. 17-5129-COAL-NOV

NUFAC MINING COMPANY, INC., COAL RECEIVER, a corporation, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated July 10, 2017, the Coal Receiver, Nufac Mining Company, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the fifty-seven (57) shipments, totaling \$5,700.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On July 18, 2017, the return receipt card for the NOV dated July 10, 2017, was filed herein, showing a date of delivery to the Coal Receiver of July 13, 2017.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

A review of the Commission's records indicates that, to date, the Coal Receiver has not paid the administrative sanctions set forth in the July 10, 2017 NOV, totaling five-thousand seven-hundred dollars (\$5,700.00).

NUFAC MINING COMPANY, INC., COAL RECEIVER, a corporation, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 15, 2017, the Coal Receiver, Nufac Mining Company, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the thirty (30) shipments, totaling \$3,000.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On June 27, 2017, the return receipt card for the NOV dated May 15, 2017, was filed herein, showing a date of delivery to the Coal Receiver of June 22, 2017.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

CASE NO. 17-5075-COAL-NOV

ORCHARD COAL COMPANY, COAL RECEIVER, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 15, 2017, the Coal Receiver, Orchard Coal Company, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. The specific violations are set forth in Appendix A, attached hereto. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the five (5) shipments, totaling \$500.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On May 23, 2017, the return receipt card for the NOV dated May 15, 2017, was filed herein, showing a date of delivery to the Coal Receiver of May 17, 2017.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

Case number: 17-5075-COAL-R

ORCHARD COAL COMPANY ORCHARD LOAD OUT P.O. BOX 1085 BECKLEY, WV 25802

You are hereby notified that the Public Service Commission of West Virginia is in receipt of an electronic report(s) disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal and have failed to accurately report shipments. You are, therefore, in violation of <u>W. Va. Code</u> Chapter 17C Article A in that:

Five (5) shipments of coal were not accurately reported by the receiver, as identified specifically in the attachment, in violation of <u>W. Va. Code</u> 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$500.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

201 Brooks Street, P.O. Box 812 Charleston, West Virginia 25323

18-5051-COAL-R

ORCHARD COAL COMPANY ORCHARD LOAD OUT 302 SOUTH JEFFERSON STREET ROANOKE, VA 24011

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal during the period January 20, 2018 through February 1, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Forty-five (45) shipments of coal were not reported by the receiver, in violation of W. Va. Code 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$4,500.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

> Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

CASE NO. 18-5223-COAL-NOV

CHESTNUT LAND HOLDINGS, LLC, COAL RECEIVER, a limited liability company, Roanoke, Virginia.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated October 9, 2018, the Coal Receiver, Chestnut Land Holdings, LLC, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the six (6) shipments, totaling \$600.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On October 19, 2018, the return receipt card for the NOV dated October 9, 2018, was filed herein, showing a date of delivery to the Coal Receiver of October 15, 2018.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

Entered: November 29, 2018

NOTICE OF VIOLATION

Certified Mail

Case number: 18-5223-COAL-R

CHESTNUT LAND HOLDINGS, LLC BISHOP PREP PLANT P.O. BOX 2178 BEAVER, WV 25813

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal during the period September 17, 2018 through and September 25, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Six (6) shipments of coal were not reported by the receiver, in violation of <u>W. Va. Code</u> 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$600.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated September 4, 2018, the Coal Receiver, Chestnut Land Holdings, LLC, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the eleven (11) shipments, totaling \$1,100.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On September 11, 2018, the return receipt card for the NOV dated September 4, 2018, was filed herein, showing a date of delivery to the Coal Receiver of September 7, 2018.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

CHESTNUT LAND HOLDINGS, LLC, COAL RECEIVER, a limited liability company, Roanoke, Virginia.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated April 2, 2019, the Coal Receiver, Chestnut Land Holdings, LLC, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. The specific violations are set forth in Appendix A, attached hereto. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the twenty-five (25) shipments, totaling \$2,500.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On April 22, 2019, the return receipt card for the NOV dated April 2, 2019, was filed herein, showing a date of delivery to the Coal Receiver of April 8, 2019.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

A review of the Commission's records indicates that, to date, the Coal Receiver has not paid the administrative sanctions set forth in the April 2, 2019 NOV, totaling two-thousand five-hundred dollars (\$2,500.00).

Entered: June 11, 2019

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 9, 2019, the Coal Receiver, Chestnut Land Holdings, LLC, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. The specific violations are set forth in Appendix A, attached hereto. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the ten (10) shipments, totaling \$1,000.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On May 15, 2019, the return receipt card for the NOV dated May 9, 2019, was filed herein, showing a date of delivery to the Coal Receiver of May 13, 2019.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

A review of the Commission's records indicates that, to date, the Coal Receiver has not paid the administrative sanctions set forth in the May 9, 2019 NOV, totaling one-thousand dollars (\$1,000.00).

DYNAMIC ENERGY, INC., COAL SHIPPER a corporation, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated April 25, 2017, the Coal Shipper, Dynamic Energy, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 for each of the twelve (12) shipments, totaling \$1,200.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On May 4, 2017, the return receipt card for the NOV dated April 25, 2017, was filed herein, showing a date of delivery to the Coal Shipper of May 1, 2017.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

NOTICE OF VIOLATION

Certified Mail

Case number: 18-5064-COAL-S

NUFAC MINING COMPANY, INC.

K2 PREP PLANT P.O. BOX 1085

BECKLEY, WV 25802

Baldue 2587.50

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have shipped coal during the period February 6, 2018 through February 27, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

One Hundred Fifty (150) shipments of coal were not reported by the shipper, in violation of W. Va. Code 17C-17A-6(a). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$15,000.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

FINAL 6/25/2018

CASE NO. 18-5122-COAL-NOV

NUFAC MINING COMPANY, COAL SHIPPER, a corporation, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated May 11, 2018, the Coal Shipper, Nufac Mining Company, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 for each of the one-hundred fifty (150) shipments, totaling \$15,000.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On May 25, 2018, the return receipt card for the NOV dated May 11, 2018, was filed herein, showing a date of delivery to the Coal Shipper of May 21, 2018.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have shipped coal during the period April 13, 2018 through May 7, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

One Hundred Fifty (150) shipments of coal were not reported by the shipper, in violation of W. Va. Code 17C-17A-6(a). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$15,000.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated June 8, 2018, the Coal Shipper, Nufac Mining Company, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 for each of the fifty-seven (57) shipments, totaling \$5,700.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On June 18, 2018, the return receipt card for the NOV dated June 8, 2018, was filed herein, showing a date of delivery to the Coal Shipper of June 14, 2018.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

On July 10, 2018 Transportation Division Director, Robert D. Blankenship, filed a Final Recommendation. Mr. Blankenship recommended that the NOV dated June 8, 2018, become the Final Order of the Commission since the Coal Shipper has failed to request a hearing or otherwise pay the administrative sanctions imposed thereby.

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have shipped coal during the period May 11, 2018 through May 25, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Fifty-seven (57) shipments of coal were not reported by the shipper, in violation of <u>W. Va.</u>

<u>Code</u> 17C-17A-6(a). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$5,700.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated July 23, 2018, the Coal Shipper, Nufac Mining Company, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 for each of the twenty-nine (29) shipments, totaling \$2,900.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On July 30, 2018, the return receipt card for the NOV dated July 23, 2018, was filed herein, showing a date of delivery to the Coal Shipper of July 26, 2018.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated March 2, 2018, the Coal Receiver, Orchard Coal Company, was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the one-hundred fifty (150) shipments, totaling \$15,000.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to <u>W. Va. Code</u> §17C-17A-9(f)(1).

On March 12, 2018, the return receipt card for the NOV dated March 2, 2018, was filed herein, showing a date of delivery to the Coal Receiver of March 9, 2018.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

A review of the Commission's records indicates that, to date, the Coal Receiver has not paid the administrative sanctions set forth in the March 2, 2018 NOV, totaling fifteen-thousand dollars (\$15,000.00).

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by staff in the CRTS Section, as well as the receipt of electronic reports of shipments, disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal on March 3-4, 2019 and have failed to report and/or failed to timely or accurately report shipments. You are, therefore, in violation of <u>W. Va. Code</u> Chapter 17C Article A in that:

Ten (10) shipments of coal were not timely and/or accurately reported by the receiver, in violation of W. Va. Code 17C-17A-6(c). Further, the shipments were received and not weighed upon a certified or calibrated scale, in violation of the Commission's Rules for the Transportation of Coal by Commercial Motor Vehicles, 150 C.S.R. 27-4.7.b. An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$1,000.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

MONTHLY TONNAGE REPORT AND REMITTANCE FORM

This form is for shippers of coal or coal by-products on the CRTS with gross vehicle weights exceeding 88,000 pounds. For each shipment with a gross vehicle weight exceeding 88,000 pounds, the shipper shall remit to the West Virginia Public Service Commission a payment of \$.05 cents per ton applied to the total tonnage of coal or coal by-product involved in each such shipment. For example, if a truck shipment has a gross weight of 100,000 pounds and the truck has a tare or empty weight of 40,000 pounds, the \$.05 cents would be imposed on 60,000 pounds (60,000) lbs = 30 tons $30 \times .05 = \$1.50$)

THIS FORM IS TO BE COMPLETED MONTHLY AND REMITTED WITH PAYMENT BY THE TENTH DAY OF THE FOLLOWING MONTH.

You are hereby notified that the Public Service Commission of West Virginia is in receipt of an electronic report(s) disclosing that violations have occurred upon the Coal Resource Transportation System in that you, as a shipper of coal for transport upon a CRTS public road or public highway of this state, are in violation of W.Va. Code Chapter 17C-17A-9 and Rules for the Transportation of Coal by Commercial Motor Vehicles, 150-27-6.1.a in that you loaded a commercial motor vehicle(s) with coal in an amount which caused the gross vehicle weight of the commercial motor vehicle(s) to be in excess of the lawful weight limit and, therefore, first offense sanctions, consistent with W.Va. Code Chapter 17C-17A-10, are imposed as detailed in the enclosure.

As a result thereof, the total of the administrative sanctions imposed, pursuant to this Notice, is \$1,507.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

CASE NO. 18-5224-COAL-NOV

BLUESTONE INDUSTRIES, INC., COAL RECEIVER, a corporation, Roanoke, Virginia.

No request for hearing on administrative sanctions issued regarding CRTS violations/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated October 9, 2018, the Coal Receiver, Bluestone Industries, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of an electronic report disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Coal Receiver has allegedly failed to timely or accurately report receipt of shipments of coal as required by the Commission's Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles, (CRTS Rules), §150-27-4, et seq. As a result, total administrative sanctions, pursuant to Rule 4.11 of the Commission's CRTS Rules, would be imposed in the amount of \$100.00 each per shipment of coal for the twelve (12) shipments, totaling \$1,200.00.

The NOV Recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Receiver exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On October 19, 2018, the return receipt card for the NOV dated October 9, 2018, was filed herein, showing a date of delivery to the Coal Receiver of October 16, 2018.

The cited Coal Receiver in this matter did not request a hearing, despite being given the opportunity to do so.

Case number: 18-5224-COAL-R

BLUESTONE INDUSTRIES, INC. KEYSTONE CLEANING PLANT P.O. BOX 1085 BECKLEY, WV 25802

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have received coal during the period September 7, 2018 through September 21, 2018 and have failed to report shipments. You are, therefore, in violation of <u>W. Va. Code</u> Chapter 17C Article A in that:

Twelve (12) shipments of coal were not reported by the receiver, in violation of \underline{W} . Va. Code 17C-17A-6(c). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$1,200.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

Initial hearings will be in Charleston, West Virginia and if violation is found, the violator shall pay hearing costs of \$150.00 in addition to other administrative sanctions.

This form is for shippers of coal or coal by-products on the CRTS with gross vehicle weights exceeding 88,000 pounds. For each shipment with a gross vehicle weight exceeding 88,000 pounds, the shipper shall remit to the West Virginia Public Service Commission a payment of \$.05 cents per ton applied to the total tonnage of coal or coal by-product involved in each such shipment. For example, if a truck shipment has a gross weight of 100,000 pounds and the truck has a tare or empty weight of 40,000 pounds, the \$.05 cents would be imposed on 60,000 pounds (60,000) lbs = 30 tons $30 \times .05 = \$1.50$)

THIS FORM IS TO BE COMPLETED MONTHLY AND REMITTED WITH PAYMENT BY THE TENTH DAY OF THE FOLLOWING MONTH.

PUBLIC SERVICE COMMISSION OF WEST VIRGINIA CHARLESTON

Entered: November 19, 2018

CASE NO. 18-5207-COAL-NOV

BLUESTONE INDUSTRIES, INC., COAL SHIPPER, a corporation, Beckley, Raleigh County.

No request for hearing on administrative sanctions issued regarding a CRTS violation/sanctions due.

FINAL ORDER IMPOSING VIOLATIONS AND ADMINISTRATIVE SANCTIONS

PROCEDURAL HISTORY

By Notice of Violation (NOV) letter dated September 4, 2018, the Coal Shipper, Bluestone Industries, Inc., was notified by the Public Service Commission of West Virginia that the Commission was in receipt of electronic reports disclosing that violations have allegedly occurred within the Coal Resource Transportation System (CRTS), in that the Shipper has allegedly failed to timely or accurately report shipments of coal as required by the Commission's <u>Rules and Regulations for the Transportation of Coal by Commercial Motor Vehicles</u>, (<u>CRTS Rules</u>), §150-27-4, et seq. As a result, administrative sanctions, pursuant to Rule 4.11 of the Commission's <u>CRTS Rules</u>, would be imposed in the amount of \$100.00 for each of the eleven (11) shipments, totaling \$1,100.00.

The NOV recipient was also informed that the specified violations and administrative sanctions, as described in the NOV letter, would become the Final Order of the Commission unless the Coal Shipper exercised its right to a hearing by notifying the Executive Secretary of the Public Service Commission, in writing, within twenty (20) days of receipt of the NOV, pursuant to W. Va. Code §17C-17A-9(f)(1).

On September 14, 2018, the return receipt card for the NOV dated September 4, 2018, was filed herein, showing a date of delivery to the Coal Shipper of September 10, 2018.

The cited Coal Shipper in this matter did not request a hearing, despite being given the opportunity to do so.

On October 2, 2018, Transportation Division Director, Robert D. Blankenship filed a Final Recommendation. Mr. Blankenship recommended that the NOV dated September 4, 2018,

P.O. BOX 1085

BECKLEY, WV 25802

You are hereby notified that the Public Service Commission of West Virginia is in receipt of information gathered by an Inspector in the CRTS Section disclosing that violations have occurred upon the Coal Resource Transportation System in that you have shipped coal during the period August 13, 2018 through August 27, 2018 and have failed to report shipments. You are, therefore, in violation of W. Va. Code Chapter 17C Article A in that:

Eleven (11) shipments of coal were not reported by the shipper, in violation of <u>W. Va. Code</u> 17C-17A-6(a). An administrative sanction in the amount of \$100.00 per shipment is assessed, or a total of \$1,100.00.

Violations and sanctions as noted in this NOTICE shall become the FINAL ORDER of the Commission unless you exercise your RIGHT TO A HEARING by notifying the Executive Secretary of the Public Service Commission in writing at the following address:

Public Service Commission of WV Attn: Executive Secretary 201 Brooks Street Post Office Box 812 Charleston, West Virginia 25323

The request for hearing must be made in writing and be received by the Executive Secretary no later than twenty (20) days of your receipt of the Notice of Violation. The request for hearing must include a copy of this notice and must identify whether the person requesting the hearing is on behalf of a shipper, owner, lessee, driver or receiver. There will be one hearing for all persons or entities subject to the administrative sanctions.

Initial hearings will be in Charleston, West Virginia and if violation is found, the violator shall pay hearing costs of \$150.00 in addition to other administrative sanctions.

To: Subject: Graley, Connie FOIA request PA 2019 688.pdf

Attachments:

Ms. Graley,

Please consider this a request made under the West Virginia Freedom of Information Act, W.Va. Code 29B-1-1 et seq.

Please provide us with a copy of the CRTS violation data that was provided to the Legislative Auditor, as mentioned on pages 6-7 of the attached report.

My understanding is that this data was provided in an Excel spreadsheet format, so please provide it to us in that format as well.

Thanks for your kind attention to this request.

Ken.

Department of Transportation Response

Executive Summary

The Legislative Auditor conducted this audit of the Coal Resource Transportation System (CRTS) pursuant to W.Va. Code §4-2-5. The objective of this review was to determine whether the West Virginia Division of Highways is in compliance with West Virginia Code's periodic reporting requirements for the CRTS.

Frequently Used Acronyms in This Report

CRTS: Coal Resource Transportation System

CRTRF: Coal Resource Transportation Road Fund

CMVW: Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee

CRTDC: Coal Resource Transportation Designation Committee

DOH: Division of Highways

PSC: Public Service Commission

Report Highlights

Issue 1: The Division of Highways' Annual Report to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Does Not Include Statutorily Required Information, Including Information Regarding the Cost to Maintain the CRTS and the Amount of Undue Road Damage Caused By It.

- The DOH is not including any of the required statutory elements in its annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The elements include the following:
 - o Citations issued for violations of this chapter;
 - o Disposition of the violations;
 - o Road conditions and maintenance;
 - Amount of undue road damage attributable to coal resource transportation road system use.
- ➤ While DOH acknowledges that CRTS roadways sustain more frequent damage and are more costly to repair and maintain, it neither tracks nor reports any information related to the amount of undue damage to these roadways or the costs to maintain them.

Recommendations

- 1. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 2. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 3. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways begin separately tracking and reporting data related to the costs to maintain and repair roads and bridges on the Coal Resource Transportation System.

Post Audit's Response to the Agency's Written Response

On July 17, 2019, Post Audit received a written response from the Chairman of the Public Service Commission (Appendix C). The PSC indicates no disagreement with the report and offers many benefits of the CRTS. The PSC also includes in its response a recommendation that the Legislature consider sunsetting the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee and requiring the PSC and DOH respectively provide annual reports directly to the Legislature.

The Legislative Auditor provided a draft copy of the report to the DOH and held an exit conference on Tuesday, July 16, 2019. The DOH acknowledged the statutory requirement to include the elements discussed in this audit report and indicated that it will do so moving forward. The Department of Transportation (DOT) provided a written response on July 18, 2019 (Appendix D), indicating its belief that tracking and reporting costs associated with maintenance of the CRTS "is of little, if any, benefit." Furthermore, DOT indicates that it would support legislation to repeal the legislative requirement to report data related to the CRTS.

Issue 1: The Division of Highways' Annual Report to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Does Not Include Statutorily Required Information, Including Information Regarding the Cost to Maintain the CRTS and the Amount of Undue Road Damage Caused By It.

Issue Summary

During the ongoing audit of the Public Service Commission (PSC), the Legislative Auditor became aware of specific responsibilities the Division of Highways (DOH) has pursuant to W.Va. Code regarding the Coal Resource Transportation System (CRTS). Based on this information, the Legislative Auditor conducted an analysis that sought to determine whether the DOH is in compliance with applicable state law as it relates to the CRTS. In addition, the Legislative Auditor sought to evaluate the CRTS's revenues against the expenditures required to repair and maintain CRTS roadways.

The Legislative Auditor's review identified the following issues with respect to the CRTS:

- 1. The DOH is not including any of the required statutory elements in its annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The elements include the following:
 - Citations issued for violations of this chapter;
 - Disposition of the violations;
 - Road conditions and maintenance;
 - Amount of undue road damage attributable to CRTS use.
- 2. While DOH acknowledges that CRTS roadways sustain more frequent damage and are more costly to repair and maintain, it neither tracks nor reports any information related to the amount of undue damage to these roadways or the costs to maintain them.

The Legislative Auditor recommends that the DOH comply with W.Va. Code and include in its annual reports to the CMVW all of the statutorily required elements. In addition, the Legislative Auditor recommends the Legislature consider revising W.Va. Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the CMVW. Further, the Legislative Auditor recommends that the DOH track and report the specific costs to repair and maintain CRTS roadways and bridges.

The Legislature Enacted the Coal Resource Transportation Road System in an Effort to Stay Competitive in the Coal Industry by Reducing Transportation Costs.

In 2003, the Legislature concluded that since coal has been a viable resource that led to a surge in the State's growth and economic potential, the implementation of a system that aids in the extraction, transportation, and exportation of coal would provide benefit and vitality to the rural communities of West Virginia. That same year, the CRTS was implemented to reduce transportation costs in an effort to stay competitive in the coal industry. As of November 2018, the CRTS encompassed approximately 2,192 miles of road and 765 bridges in 19 counties.

The program was enacted with the following objectives:

- To ease the financial burdens of the coal industry by providing an efficient medium to reduce transportation costs by allowing excess loads to be hauled on identifiable roadways throughout the State;
- Reduce the pressures to transport coal over extended hours and increased speeds;
- Help sustain the coal industry as an integral economic and societal force in West Virginia.

As a result, economic incentives such as reduced transportation cost, lessened hours for drivers, and the capacity to transport more coal are realized by allowing coal trucks to carry loads in excess of the legal limit of 80,000 pounds.

State-maintained roads and public highways are the primary method of transportation for coal-hauling vehicles on the CRTS. The maximum vehicle gross weight for coal trucks on the CRTS range from 80,000 to 120,000 pounds with a tolerance of five percent, based on axle configuration. Figure 1 below provides a breakdown of those limits.

C	RTS Weight Lin	Figur nits by Trucl	e 1 k Type and Number of	Axles
Type of Truck	Number of Axles	Maximum Weight (lbs)	Maximum Weight With 5% Tolerance (in lbs)	Annual Special Permit Fee (\$)
Single Unit	1 Steering Axle, 2 in Tandem	80,000	84,000	\$100
Single Unit	1 Steering Axle, 3 in Tridem	90,000	94,500	\$160
Tractor- Semitrailer	5 Axles	110,000	115,500	\$300
Tractor- Semitrailer	6 or More Axles	120,000	126,000	\$500
Source: West Virg	inia CSR §150-27-3.			

Simply stated, the tolerance accounts for variances in load that are difficult to accurately measure, which gives coal transportation vehicles flexibility concerning the weight of the load

being hauled. Special permits are issued based on the number and combination of axles a vehicle has and contain a corresponding maximum gross vehicle weight.

The Public Service Commission (PSC) and Division of Highways (DOH) received statutory authority from the Legislature to oversee the implementation and administration of CRTS. The DOH was delegated with establishing all legal vehicle road weight limits for all public highways, including roads within the CRTS. Specifically, the statutory requirements of the PSC were to administer the CRTS permitting program and enforce the provisions of Senate Bill 583 (SB583), which includes the collection of fee monies, enforcement of administrative sanctions (e.g., reporting and weight violations), and to ensure proper reporting requirements for shippers/receivers. Fee monies collected from permitting and 5-cent tonnage fees are remitted to the Coal Resource Transportation Road Fund (CRTRF), which is a special revenue fund administered by the DOH to supplement repairs and maintenance of roadways and bridges in the CRTS.

State-maintained roads and public highways in certain counties are eligible to qualify as part of the CRTS. In 2005, legislation was enacted that created the Coal Resource Transportation Designation Committee (CRTDC) whose responsibility is to approve the designation of additional coal resource transportation roads not located within the counties of Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Wayne, and Wyoming. Additions to the CRTS can be made by companies requesting to include additional segments of state-maintained roads and are subject to an application process with a corresponding \$5,000 fee.

Enforcement of the weight limits on the CRTS is governed by the CRTS Section of the Transportation Division within the PSC. PSC Utilities Inspectors are tasked with conducting site inspections, reviewing data and documentation for the electronic reporting system, and visual inspections of weight scales at shipper and receiver sites. Also, PSC Weight Enforcement Officers, although not classified as staff in the CRTS Section, monitor the daily activity of weight enforcement at designated weigh stations across the State.

Division of Highways Annual Reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Do Not Include Statutorily Required Information.

In an effort to examine the costs and benefits associated with operating on coal resource transportation roads, W.Va. Code §17C-17A-3 requires the DOH to provide periodic reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The CMVW was established with the purpose of studying the implementation of the commercial motor vehicle weight and safety enforcement program and the effects of excess loads on roadways. To ensure comprehensive advisement under this article, the committee is to be comprised of appointed state employees from state agencies and members of the West Virginia Legislature. The reports are to include the following information:

¹ Counties included are Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Wayne, Wyoming, Braxton, Webster, Ohio, Greenbrier, Clay, Nicholas, Summers, and Kanawha.

(1) Citations issued for violations of this chapter; (2) disposition of the violations; (3) road conditions and maintenance; and (4) the amount of undue road damage attributable to coal resource transportation road system use.

The Legislative Auditor reviewed these reports, provided on an annual basis by DOH to the CMVW, from 2015-2018. The DOH has not included any statutorily required data as required under the provisions of W.Va. Code §17C-17A-3 in its reports. The lack of information provided in this report makes it difficult for analyses to be conducted on CRTS operations to determine its effectiveness.

Citations

Noncompliance with applicable laws and regulations on the CRTS are met with the issuance of citations, commonly referred to as violations. Violations may be issued for numerous reasons but are most commonly issued on the basis of (1) overweight and (2) reporting violations. Overweight violations are issued when trucks are hauling loads in excess of the legal limit. Alternatively, reporting violations occur when drivers, shippers, or receivers fail to adhere to the reporting requirements for shipments on the CRTS.

Disposition of Violations

Violations are differentiated by their disposition, or what happened as a result of a violation being issued. The disposition of a violation contains identifying attributes which makes each violation unique. For each violation issued by enforcement officers (or other comparable law enforcement) on the CRTS, the disposition must include specific information to differentiate one violation from the next. These identifying attributes are stored internally in a data management system which allows internal users to produce reports that assist in maintaining efficient and effective enforcement on the CRTS.

W.Va. Code mandates that the disposition of CRTS violations must be included in the DOH's report. However, W.Va. Code does not clarify what information regarding dispositions must be reported. The statute's broadness and ambiguity leave reporting dispositions open for interpretation. As a result, the State's ability to collect, assimilate, and report on CRTS operations may be hindered by a lack of usable information. Therefore, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported.

The Legislative Auditor's Office was provided with data relating to the violations in the *Notice of Violations* by the PSC or other law enforcement, which is a comprehensive listing of all violations and their identifying attributes. The following attributes are reported with each violation:

- ➤ Date Issued
- > Respondent Parties
- > Case Number
- ➤ Site

- Sum of Adjustments (\$)
- ➤ Latest Payment Date
- ➤ Balance Due (\$)
- > County

- ▶ Date Served
- ➤ 20 Days Up
- ➤ Identifying Number
- > Type of Violation
- > Fine Amount (\$)

- Hearing Required
- > Date Staff Memo Filed
- > Order Final Date
- ➢ Offense Number
- *Categories indicated with a dollar sign represent a monetary amount.

The Legislative Auditor's examination indicated that none of the above-mentioned attributes were included to provide an accurate disposition of the violations. This may be due, in part, to the shared responsibilities of the PSC and DOH.

The PSC is statutorily required to enforce the provisions of W.Va. Code on the CRTS. Conversely, reporting CRTS-related operations—as it relates to the CMVW—falls under the purview of the DOH. Because enforcement of the CRTS is under the purview of the PSC, the DOH may not have readily available access to the required information.

Further, the Legislative Auditor determined that the DOH's annual reports include information regarding its current and future obligation of funds from the CRTRF, but does not include comprehensive information regarding the amount of undue damage caused by coal transportation on the CRTS or any information regarding the total cost of repairs for CRTS roadways. While the DOH is able to provide an estimated cost per bridge, there is no data provided for actual roadways. Therefore, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.

The Division of Highways Routinely Expresses Concerns Over Insufficient Program Revenues and Its Inability to Ensure Proper Maintenance and Repair. However, It Does Not Track or Report Any Specific Cost Data.

In each annual report reviewed by the Legislative Auditor, the DOH expresses its conclusions and concerns with the operation of the CRTS. From 2015-2018, the DOH routinely indicated that its major concern was the sufficiency of revenues to maintain the CRTS. According to the 2018 report:

[It] is clear that the financial resources needed for highway and bridge maintenance on the CRTS exceed the amount of dedicated funds available for that purpose. At this rate, it would take approximately 20 years to replace or repair the programmed CRTS bridges using only CRTS revenues.

Damage to roads and bridges on the CRTS can be attributed to two primary factors:² excessive loading of trucks and the speed at which those trucks travel. As loads in excess of the legal limit increase in frequency, diminished road conditions become a primary safety concern for motorists, and, ultimately, the State. Because public safety is a chief concern of all state-run

² Excluding common factors inherent to non-CRTS roadways and bridges.

programs, inclusion of the road conditions noting deterioration and degradation of roadways and bridges used in the transportation of coal must be accurately represented so that remedial measures can be implemented.

In general, roads and highways utilized for transportation of excess weights have a thicker overlay of pavement to account for increased loads. The overlay—made of composite material—helps to ensure that roadways are structurally sound to withstand increased load weights. However, increased weights disproportionately augment damage to roadways relative to the increase in weight hauled by large vehicles. Damage does not increase proportionally with the increased weight, but rather, damage increases exponentially. This requires more frequent and costly maintenance compared to regular state-maintained roads. Consequently, these conditions result in increased maintenance costs that are incurred by the State.

Moreover, the Legislative Auditor determined that roads designated for use in the CRTS make up a significant proportion of all roadways in many southern counties. As Figure 2 below demonstrates, CRTS road-miles in Boone, Logan, McDowell, Mingo, and Wyoming counties account for over 30 percent of the total road-miles in each of those respective counties, and more than 40 percent of all road-miles in Boone, McDowell, and Mingo counties.

Figure 2. CRTS Road-Miles as a Percent of Total County Road Miles

The Legislative Auditor requested and analyzed revenue and expenditure data relating to the CRTS operations. The CRTS has generated an average annual revenue stream of approximately \$3 million, totaling \$44 million, over the life of the program since 2003. Revenues are comprised of special permit fees, 5-cent tonnage fees, and donations provided by coal companies from 2003-present.³ Of the four sources, 5-cent tonnage fees account for the majority of revenue—approximately \$28 million or 64 percent—attributable to the CRTRF, over that same period. The other sources of revenue account for the remaining \$16 million or 36 percent of CRTRF funds. Figure 3 provides a percentage breakdown of CRTRF funds attributable to the revenue streams mentioned.

Special Permit
Fees, \$10,690,446
24%

Donations,
\$2,194,488 5%

Federal-aid
Reimbursement
\$3,091,618 7%

Figure 3
Percent of CRTRF Funds Attributable to Revenue Streams

Source: Figures derived from the 2018 report to CMVW.

Since the program's inception, CRTRF revenues have experienced considerable annual fluctuations, most notably since 2013. Annual revenues exhibited a high of \$4.04 million in 2013 and a low of \$1.68 million in 2016, representing a decrease in revenue of approximately 58 percent, and also totaling the lowest annual revenue inflow since the program was enacted. Annual revenues are displayed in Figure 4 below.

⁵ Federal-aid reimbursement is a fourth source of funds; however, it is not considered a primary source.

Source: 2018 report to the CMVW.

	Figure 5				
Annual	Annual CRTS Revenue 2005-2018				
Year	Annual Revenue				
2005	\$3,760,000				
2006	\$3,330,000				
2007	\$4,020,000				
2008	\$4,010,000				
2009	\$3,440,000				
2010	\$2,780,000				
2011	\$3,900,000				
2012	\$3,700,000				
2013	\$4,040,000				
2014	\$2,340,000				
2015	\$2,110,000				
2016	\$1,680,000				
2017	\$1,840,000				
2018	\$2,130,000				
Source: Com	piled from DOH annual reports.				

The Legislative Auditor requested expense records from the DOH for maintenance projects conducted on CRTS roadways to compare program revenues to the cost to repair and maintain CRTS roads. However, DOH officials indicated that they neither maintain separate records for maintenance on coal resource transportation roads nor maintain cost data for repairs on the CRTS compared to other non-CRTS state-maintained roads.

Although the DOH cannot provide an estimated cost to repair coal resource transportation roads, it does provide an estimated cost to repair bridges encompassed in the CRTS.

Figure 6 Increase in Bridge Costs						
Year	Bridges Scheduled for Repair/ Replacement	Estimated Total Repairs	Average Cost Per Bridge	Increase in Total Cost from Base Year	Increase in Average Cost from Base Year	
2015	29	\$25,700,000	\$900,000			
2016	29	\$30,100,000	\$1,150,000	17%	28%	
2017	34	\$53,100,000	\$1,500,000	107%	67%	
2018	44	\$62,000,000	\$1,400,000	141%	56%	
Source: 2	015-2018 Annual Reports to (CMVW			The second secon	

A review of available data provided by the DOH in annual reports to the CMVW disclosed estimated bridge repair costs have steadily increased from 2015 through 2018. As shown in Figure 6 above, 2015 had an estimated total bridge cost of \$25.7 million with each subsequent year increasing in total cost, ending with 2018 exhibiting an estimated total bridge cost of approximately \$62 million. This equates to a 141% increase in estimated total bridge costs from 2015 to 2018.

A comparison of CRTS-related expenses to normalized state-maintained road expenses would allow a cost multiplier to be reasonably calculated. A cost multiplier would provide a simple way of comparing expense costs on CRTS roads and non-CRTS roads. However, due to the lack of sufficient data for measurable comparisons, the Legislative Auditor was unable to determine how total CRTS maintenance compares to general road maintenance on state-maintained roads that prohibit the transportation of excess loads.

The Legislative Auditor acknowledges that fee revenues generated by the CRTS were intended by the Legislature as a financial supplement, not as a standalone means to fully support the CRTS. However, the Legislative Auditor concludes that it is prudent to separately track and report the costs associated with repair and maintenance of CRTS roadways and bridges given the amount of state funds that are appropriated to the DOH for road maintenance and the continued concern expressed by the DOH regarding these expenses. This would allow the CRTS program to evaluate any potential increase in the maintenance costs for these roads against the adequacy of the funds generated in the CRTRF to supplement those costs. Therefore, the Legislative Auditor recommends that the DOH begin separately tracking and reporting data related to the costs to maintain and repair CRTS roads and bridges.

Conclusion

The Coal Resource Transportation System is made up of nearly 2,200 miles of roadways, predominantly comprising southern West Virginia's secondary roads. For some counties, CRTS road-miles account for close to half of the total road-miles in the county.

While it is widely acknowledged that the increased weight limits for coal hauling along these roads exponentially increases the damage they sustain, thereby increasing the costs of maintenance and repair, the DOH currently does not track these increased costs. Moreover, important data regarding activities on the CRTS are not being reported to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee, as required under current law.

On July 18, 2019, the Cabinet Secretary for the Department of Transportation responded to the findings of this report indicating that, "the DOT feels that the reporting of cost data for maintenance and repair pertaining to those routes included in the CRTS is of little, if any, benefit to the public or the Legislature." The DOT acknowledged, however, the current statutory requirement to include the elements discussed in this audit report and indicated that it will do so moving forward.

Recommendations

- 1. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 2. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 3. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways begin separately tracking and reporting data related to the costs to maintain and repair roads and bridges on the Coal Resource Transportation System.

Byrd E. White, III, Cabinet Secretary West Virginia Department of Transportation State Capitol Complex Building 5

Dear Cabinet Secretary White:

This is to transmit a draft copy of our report on the Coal Resource Transportation System. This report is tentatively scheduled to be presented during the Tuesday, July 23, 2019 interim meeting of the Post Audits Subcommittee, which is currently scheduled for 10:00a.m. in the Senate Finance Committee Room (451-M). We recommend that you send a representative from your agency to the meeting to respond to the report and answer any questions committee members may have during or after the meeting.

If you would like to schedule a meeting to discuss any concerns you may have with the report, please notify Terri Stowers, Executive Administrative Assistance, at 304-347-4880 by Friday, July 12, 2019. In addition, we would like to extend the opportunity to you to provide written comments on the report. We will need any written response by noon on Wednesday, July 17, 2019 in order for it to be included in the final report. Thank you for your cooperation.

Sincerely,

Justin Robinson

Appendix B

Objective, Scope, and Methodology

The Post Audit Division within the Office of the Legislative Auditor conducted this review as authorized by Chapter 4, Article 2, Section 5 of the West Virginia Code, as amended.

Objectives

The objective of this review was to determine if the West Virginia Division of Highways (DOH) is in compliance with the West Virginia Code requirements with respect to its periodic reports on the Coal Resource Transportation System (CRTS). In addition, the objective sought to determine what data the DOH maintains on the specific costs of repairing CRTS roads and bridges.

Scope

The scope of this review consists of all DOH reports to the Commercial Motor Vehicles Weight and Safety Enforcement Advisory Committee between 2015-18. The scope involved interviewing select staff with PSC and the DOH. The audit staff will not attempt to make any determination regarding expenditures of monies collected for the Coal Resource Transportation Road Fund.

Methodology

Post Audit staff gathered and analyzed several sources of information and assessed the sufficiency and appropriateness of the information used as evidence. Testimonial evidence was gathered through interviews with various agencies that oversee, collect, or maintain information. The purpose for testimonial evidence was to gain a better understanding or clarification of certain issues, to confirm the existence or non-existence of a condition, or to understand the respective agency's position on an issue. Such testimonial evidence was confirmed by either written statements or the receipt of corroborating or physical evidence.

Audit staff analyzed various source documents that were either provided by the PSC, the DOH, or publicly available on the web. In addition, information was obtained using the State Auditor's website.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Appendix C

Comments on Legislative Auditor Report on the Coal Resource Transportation System

Charlotte R. Lane, Chairman
Public Service Commission of West Virginia

Tuesday, July 23, 2019 10:00 a.m. – 12:00 p.m. Senate Finance – 451M

Public Service Commission of West Virginia Response to Legislative Auditor Report on Coal Resource Transportation System Presenter – Charlotte R. Lane, Chairman

Thank you for the opportunity to respond to the Legislative Auditor's report on the Coal Resource Transportation System (CRTS).

- The Commission fulfills its delegated duties under the CRTS statutes, W. Va. Code §§17C-17A-1 et seq. and 17C-17B-1 et seq.
- CRTS is a successful program. Benefits of the CRTS laws include increased public safety for citizens who reside along and share CRTS roadways and for truck drivers. By reducing gross weights of coal trucks, CRTS has also decreased damage to state roads and bridges. The program has generated \$38.9 million from operators using CRTS routes. It has also resulted in another \$2.2 million in donations made to DOH in order to upgrade roads that companies wish to add to the CRTS system.
- The CRTS provides an administrative sanction process to address violators. Administrative sanctions are applied to coal operators and transportation companies, thus holding both accountable. The program also helps to ensure compliance with other state and federal agencies by verifying that a company has a valid contract, business license and insurance; that it is registered with the Commission; and that it is properly permitted by other agencies before issuing a CRTS permit.
- CRTS code mandates coal companies submit daily electronic filings containing detailed data of coal shipments, including the gross vehicle weight of every shipment. This data enables the Commission to deploy Enforcement Officers to routes that are identified as problem areas, which improves the safety of those roadways. This information has also decreased the amount of time Enforcement Officers must spend weighing coal shipments, which increases the time they can spend on other enforcement duties.
- The Commission-appointed member of the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW) chairs and attends the quarterly meetings of CMVW. At that meeting, the PSC provides all attendees with a summary

report of notices of violation (NOV), citations issued, sanctions issued, sanctions dismissed, sanctions collected and the number of final orders issued. The Commission also provides a breakdown of the number of NOVs issued by county. The Commission has additional specific background data on the issued NOVs and citations, and can provide that to DOH or to the Legislature.

- Attached is an example of Commission reporting to the CMVW.
- The original purpose of the CMVW was to receive and address citizen complaints related to coal truck traffic. The committee worked diligently during its early years to develop protocols that have grown into the efficient and effective system that is today's CRTS. Because those efforts were so successful, citizen complaints have now decreased to a level that indicates that such oversight is no longer necessary. Therefore, we respectfully suggest that the CMVW be sunsetted, and that the DOH or PSC, as applicable, report annually to the Legislature.

Annual CRTS Permits Issued by Class

YEAR	Class A Single unit truck, 1 steering axle and 2 axles in tandem, maximum gross weight 80,000 lbs. (5% tolerance), \$100 annual permit fee	Class B Single unit truck, 1 steering axle and 3 axles in tridem, maximum gross weight 90,000 lbs. (5% tolerance), \$160 annual permit fee	Class C Tractor-semitrailer combination with 5 axles, maximum gross weight 110,000 lbs. (5% tolerance), \$300 annual permit fee	Class D Tractor-semitrailer combination with 6 or more axles, maximum gross weight 120,000 lbs. (5% tolerance), \$500 annual permit fee	Total
2014	13	154	92	1,246	1,505

Subject: Ken Ward FOIA request Justice Companies

Attachments: Sb21st-1-19090315071.pdf

Hello Connie,

Kathy brought me copy of the FOIA request filed by Ken Ward today. (copy attached)

Due to the broad scope of data Mr. Ward has requested it will be impossible for us to meet the 5 day deadline as required by statute while conducting regular duties. We'll have hundreds of emails from multiple staff members, violations, thousands of electronic transactions, case information and other records. It will take closer to 10 to 15 business days. I will also confer with our legal Division to ensure all data we intend to provide can be provided.

Mr. Ward has also contacted Susan Small requesting copies of all Notice of Violation data provided to the Legislative Audit Committee earlier this year. I advised Susan to have Mr. Ward file an additional FOIA.

Respectfuly,

Greg Birurakis WV Public Service Comm. Transportation Division Office: (304) 340-0371

To: Subject:

Graley, Connie FOIA request

Ms. Graley,

Please consider this a request made under the West Virginia Freedom of Information Act, W.Va. Code 29B-1-1 et seq.

Please provide us with all correspondence between the commission and the Justice companies between the dates of Jan. 16, 2017, and Aug. 30, 2019.

These request is meant to include correspondence written or received by the commission as an agency, by individual commissioners, by any commission staff, and by any other commission representatives. For purposes of this request, the Justice companies are meant to include any companies known to the commission to be owned or controlled by James. C. Justice II, James C. Justice III, or Jillian Justice, and also to include, but not be limited to Southern Coal, Bluestone Industries, Bluestone Coal, Chestnut Land Holdings LLC, Kentucky Fuel Corporation, Nufac Mining, and Orchard Coal Company.

This request is meant to include, but not be limited to, correspondence regarding the Coal Resource Transportation System and any violations of the requirements of state law or regulations regarding that system.

Should you have questions about this request, please contact me. We look forward to your response within 5 days, as required by the statute.

Subject: FW: C00007681R Weekly Site Transaction Count

Hello Davis,

Part of the Joint Stipulation and Settlement Agreement Steve Ball signed on October 16' 2018 stipulates the companies registered with the WVPSC under Bluestone Industries will work with CRTS staff to determine the amount of tonnage fees owed by these companies for the period July 1, 2015 through June 30, 2018.

Sites registered under Bluestone during the period of review include Paycar 58, Keystone(Eckman Yard), Redfox and the Bishop Load out.

Time period under review is July 1, 2015 through June 30, 2018.

Audit is to occur on or before November 15, 2018.

I would like to review the companies records on November 8^{th} , 13^{th} or 14^{th} . I can come to the Roanoke office or meet your staff at the Glade Springs office if the records are accessible from there. Janet and whomever else maintaining records associated with the transportation of coal will need to be available.

Is one date better than the others?

Best regards,

Greg Birurakis WV Public Service Comm. Transportation Division Office: (304) 340-0371 Fax: (304) 340-0859

Subject: RE: C00007681R Weekly Site Transaction Count

Janet Ranson, Chris Adams & Davis Stoneburner,

Lagree there is a disconnect with K2, Bishop Plant and Bishop Loadout. Thave discussed this with Greg and in an effort to eliminate confusion let's do the following.

Since Bishop Loadout (C00007681R) and Bishop Prep Plant (L00000941) essentially set on the same property effective Monday, November 5, 2018 please use the Bishop Prep. Plant ID (L00000941) for coal currently being shipped to or from the Bishop Loadout. In turn PSC will view them as One Site under Bishop Prep Plant Site ID (L00000941).

Davis, if you concur, please reply to confirm this and we will move Bishop Loadout (C00007681R) from Active to Inactive Status.

Chris, you will have to educate the drivers to begin using the Bishop Prep. Plant ID (L00000941) Destination Code instead of the Bishop Loadout (C00007681R) Destination Code before any coal is shipped.

Hopefully, this will help all parties in reporting shipments between K2 and Bishop Complex.

Janet, all shipments between K2 and Bishop Loadout prior to Monday, November 5, 2018 will still have to be resolved and corrected. On or prior to Thursday, November 15, 2018 Greg is to meet and conduct an audit records pursuant to the settlement. At that time we will review the records you are currently correcting between K2 and Bishop prior to November 5, 2018 before they you re-send them.

For everyone's reference, since September 1st, K2 to Orchard runs 95% reporting accuracy and between K2, Red Fox and Bishop that number is at less than 56% reporting accuracy. Industry as a whole is at 98%.

Thank You,

Subject: RE: C00007681R Weekly Site Transaction Count

Larry, I have a few questions. On the K2 to Bishop for 10/21-10/27 you said there are 36 shipper records that do not have a receiver reco0d at Bishop. I match to the K2 Clean to Bishop scale report. I think perhaps the disconnect is the Bishop receiver number being used. L00000941 is Bishop plant, C00007681R is the Bishop loadout. I understand this is actually one and the same location- the difference in permit ID's is because at one time-it had 2 different owners. If K2 uses Bishop Plant as the receiver (L00000941) and I used Bishop loadout as the receiver (C00007681R) there is a disconnect. I have no way of knowing what K2 is using. This coal is being cleaned at K2 and then being trucked back to Bishop loadout., so has no reason to be going to Bishop prep plant.

How to resolve this?

Subject: RE: C00007681R Weekly Site Transaction Count

Importance: High

Janet,

Attached you will find separate spreadsheets for the week of 10/21 to 10/27. Bishop Receiver (RF to Bishop), Red Fox to K2 and K2 to Bishop.

On the <u>Bishop Receiver Incompletes</u> you created 16 records with Red Fox ID and 79 records with Bishop's ID as the as the Site Tran No.'s. They were all sent as a Receiver Records, <u>but the Site Tran No. and Shipper Tran No. should not match on Receiver Records</u>. See Errors highlighted in <u>Yellow</u>. If these are true Receiver Records the Shipper Tran No. would have to be Red Fox's Shipper Tran No., but I do not see any Red Fox Shipper Records. There is also one Permit ID error, you have 2018-B00702 with a weight of 125,880, which means the load was overweight by 37,880 lbs. Check this Permit, most likely should be 2018-D00702.

On the Red Fox to K2 Records there are 53 Receiver ID Errors. Remember, K2's Site ID (Receiver ID) has 6 zero's, not 5 zero's as you entered. It should be **L000000919**. On this sheet all Receiver Records are highlighted in Yellow, all Shipper Records are in White. In addition, there are 4 Duplicated Shipper Tran No.'s found on another transaction, and 1 Duplicated Shipper Tran No. on a completed transaction. Refer to the Errors column. There are a few transactions that would clear if the Receiver ID was correct. But, there is a big mismatch in your reported Shipper Tran No. and the Shipper Tran No. being entered by the drivers at K2. I do not know who is correct or who is wrong. Most of your Shipper Tran No.'s begin with **14--**, and those being entered by the drivers at K2 begin **41--**. Someone is way off, I suggest you get with Chris Adams and figure the numbers out.

On the K2 to Bishop, there are 36 Shipper Records that do not have a Receiver Record at Bishop.

Please feel free to contact me if you have any questions.

Thank You.

Re: CASE NO. 18-1074-COAL SC-GI (CHESTNUT LAND HOLDINGS, LLC)

Dear Director Ferrell:

Please find attached a Motion for Continuance being filed on behalf of Chestnut Land Holdings, LLC. I have cc'd Staff Attorney Linda Bouvette on this Motion as well. Thank you for your consideration of this matter.

Respectfully submitted,

General Counsel

Stephen W. Ball

PUBLIC SERVICE COMMISSION OF WEST VIRGINIA CHARLESTON

CASE NO. 18-1074-COAL-SC_GI CHESTNUT LAND HOLDINGS, LLC

CHESTNUT LAND HOLDINGS, LLLC'S MOTION FOR CONTINUANCE OF HEARING

COME NOW Chestnut Land Holdings, LLC ("Chestnut"), by counsel, and hereby moves this honorable Commission to continue the hearing currently scheduled for October 16, 2018 at 9.00 am.

- 1. Pursuant to Rule 9.1(b) of the Rules of Practice and Procedure of the West Virginia Public Service Commission the undersigned has contacted Linda Bouvette, Staff Attorney of the West Virginia Public Service Commission and Ms. Bouvette has agreed the West Virginia Public Service Commission has no objection to this Motion. [See Declaration of Ralph D. Stoneburner attached hereto as Exhibit A]
- 2. Chestnut requests a brief continuance of the above described hearing to allow Chestnut adequate time to prepare for the hearing, and in the alternative to otherwise resolve the outstanding issues that are the subject of the case at hand.
- 3. At a meeting on or about September 17, 2018 between representatives of Chestnut and the WV PSC Chestnut believed it had officially changed the address for all communications between the WV PSC and Chestnut. According to WV PSC this change was not made officially, and all communications have continued to be delivered to the old address. As a result of this misunderstanding Chestnut only received notice of the above described hearing today, October 15, 2018. [See Declaration of Ralph D. Stoneburner attached hereto as Exhibit A]
- 4. Additionally, representatives of Chestnut believed at the September 17, 2018 meeting an agreement had been reached to resolve all outstanding issues, including issues not specifically addressed in the current case. However, WV PSC has clarified that it was their understanding the meeting only addressed matters outside of the case at hand and did not address

n de xomen de la composition de la comp

matters that are the subject of this current action. [See Declaration of Ralph D. Stoneburner attached hereto as Exhibit A]

5. As a result of Chestnut's understanding of the September 17, 2018 meeting, even if Chestnut had received adequate notice of the hearing Chestnut would have believed all outstanding issues were resolved at the meeting and the notice would have been deemed moot. [See Declaration of Ralph D. Stoneburner attached hereto as Exhibit A]

WHEREFORE, Chestnut Coal Company respectfully requests that the Commission grant this Motion for Continuance, enter an Order extending the above described hearing and such other relief as the Commission deems appropriate and just.

CASE NO. 18-1077-COAL-SC-GI CHESTNUT COAL COMPANY

DECLARATION OF RALPH D. STONEBURNER JR.

- l, Ralph D. Stoneburner Jr., hereby declare and state, as follows:
- 1. I serve as Vice President of Operational Administration for Chestnut Land Holdings, LLC ("Chestnut") and thus, I have personal knowledge of the facts stated in this declaration, including the meeting with the West Virginia Public Service Commission that took place on or about September 17, 2018 at the offices of Chestnut Coal located in Daniels, West Virginia (the "Meeting").
- 2. At the Meeting 1 believed that 1 had adequately changed and updated the mailing address of Chestnut to be 302 S. Jefferson Street, Roanoke, VA 24011.
- 3. I provided the correct address information to Brian Holstein, an employee of the WV PSC.
- 4. As a result of the Meeting I believed the parties were working together to eliminate any and all outstanding issues.
- 5. On October 15, 2018, for the first time I received notice of a hearing that is to take place at the Commission of the West Virginia Public Service Commission on October 16, 2018 at 1:00 pm.
- 6. Upon receipt of this notice I immediately contacted the WV PSC and advised them that I believed all of these issues had been resolved at the Meeting. I was advised by the WV PSC that my understanding was incorrect.

- 7. I was further advised by the WV PSC that if Chestnut was not in a position to appear at the above described hearing Chestnut should request a continuance.
- 8. The WV PSC, through its counsel Linda Bouvette acknowledged that the WV PSC had no objection to the request of a continuance.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on October 15, 2018, at Roanoke, Virginia.

- 7. I was further advised by the WV PSC that if Orchard was not in a position to appear at the above described hearing Orchard should request a continuance.
- 8. The WV PSC, through its counsel Linda Bouvette acknowledged that the WV PSC had no objection to the request of a continuance.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on October 15, 2018, at Roanoke, Virginia.

Ratph D. Støneburner Jr.

PUBLIC SERVICE COMMISSION OF WEST VIRGINIA CHARLESTON

CASE NO. 18-1077-COAL-SC-GI ORCHARD COAL COMPANY

Subject: RE: corrections

You could try adding them to the files waiting to be sent from one of the scale systems providing the corrections are delimited and complete. Are you receiving an error message when you try to use the ftp server on your system?

Subject: RE: corrections **Importance:** High

Ive taken another look at the PSC reporting page website. This appears to want the information on a line by line basis, entry one at a time. How can we upload entire spreadsheets? It seems our "Classic FTP" is not working.

Please help so we can get these caught up.

Thanks so much.

Janet.

If the "corrections" you are referring to were from the file I provided on the 13th, I do not see them at this time. As you know we'll need those before we can try to clear up the 1600 incompletes still on file. The good news is I didn't see invalid data from K2 in the data submitted since the 4th. The bad news is we are still getting duplicate or no shipper ticket numbers in some of the receiver records from Orchard.

Thank You, Greg Birurakis

Janet,

I'll take a look at everything we've received since the 4th sometime this afternoon and get back to you. Glad to hear you have the FTP software which should make sending records from the office much simpler.

Greg, I need to know if any of the corrections we have attempted to upload were successful? According to the PSC website, Whit downloaded a software- Classis FTP and we have been using this. The software shows the uploads successful but I don't know if it is or not.

All items have been corrected that you sent last Monday and Whit uploaded same. We need to know if it worked in order to not duplicate previous uploads and information.

Please advise and thanks.

Hello Janet,

Per your request we removed the 5 transactions listed below containing tare or empty weights in the GVW field. I will take a look at transactions 19765 and 19768 in the morning.

Just an observation but you may want make sure the trucks are updating their tare or empty weight on a regular basis. In the in first transaction (L200000790-15606). The trucks stored tare/empty weight is 2000 pounds less than his actual scale weight. Every truck running like this misrepresents tons shipped, transported and received.

Have a good evening.

Thank You,

Greg Birurakis

Subject: RE: all corrections

Greg, Someone was supposed to upload this last week while I was gone. Im sorry it want followed through on, but we will work on this today.

As a note, email is not my preference, it is the only the way to communicate with me, I am profoundly deaf. I do great face to face, because I lip read. Please do not diminish me by stating it is my "preference". That would indicate that I have a choice in the matter, and I can assure you, I do not.

Thank you for your patience,

Janet

Subject: RE: all corrections

Janet,

The proposed corrections you sent us on the 7th would clear up some of the files but they would also leave us with approximately 555 to reanalyze. Adding erroneous data wouldn't help either of us. In an effort to resolve this matter I took the time last week to analyze and send you corrections that would clear up 1499 of those original 1515 records. Those corrections are under the green tab labeled "corrections" in the file I sent back on the 8th and again today. Those records need to be submitted electronically to the FTP server. Of the 16 remaining records, 4 were tare weights and the other 12 couldn't be matched, shipper/receiver data. Keep in mind our staff does not have the ability to edit details within submitted records, only the ability to remove erroneous or mismatch data once the corrections are received. We can help you format the corrections but your office is required to submit them electronically to the server. I understand communicating by phone isn't a preference of yours so if you are still having trouble understanding, please have someone from your office call me so I can explain it to them and they can explain it to you in person. The only other options I can think of are you coming here for a day or possibly us meeting you at one of your WV offices.

Thank You,

Greg Birurakis WV Public Service Comm. Transportation Division Office: (304) 340-0371

Hello Janet,

I did not get a response to this last email so I wanted to make sure you were aware the PSC has not received corrections for the 1515 incomplete records originally submitted August 2nd to August 4th. We have received matching data for 261 shipments since August 4th. I will be in the office today but out of the office the remainder of this week.

I've attached my analysis of the original 1515 records again. Please contact Brian Holstein if you have any questions while I'm out of the office.

Best regards,

Greg Birurakis WV Public Service Comm. Transportation Division Office: (304) 340-0371

Subject: RE: all corrections

Hello Janet.

My analysis of the incomplete records currently on file is attached. (1515 records)

There are 4 tabs within the attachment.

- 1. Corrections- 820 records with corrections in place for invalid/mismatched permit ID's, ticket/transaction numbers or source codes. These records need to be correctly formatted and resent in a timely manner.
- 2. Unresolved These are records I could not match up. (12)
- 3. Trans w/tare weight These don't appear to be coal shipments, only the tare or empty weights of a truck. May occur when a driver misses a tare time requirement. If you agree, we will remove them from the audit program.
- 4. Main Raw data (1515)

You don't have to do anything with 2,3 or 4.

KC at Orchard needs to make sure the truck boss and drivers understand the importance of entering the exact ticket number when they scale in at Orchard.

Once your office submits the corrections and we reconcile everything on our end, I'm guessing we'll end up with 25 or less incompletes if all goes as planned.

I don't remember seeing an email from Davis listing the persons to receive weekly transaction counts for these sites. Therefore, we plan to add your email to the list that receives site transaction counts for the previous week. This will give you the opportunity verify if records from JCC companies were submitted correctly. If someone else should be receiving these emails with counts please advise. We can list up to three people.

I've included the inspectors for these areas and their supervisor in my response, they will take over from here. They will contact you, Chris or Davis on a weekly basis if additional CRTS issues are detected. If you detect problems, please inform the inspectors as soon as possible. They all know the best line of communication with you is by email.

You are always welcome to contact me if you have any questions or concerns in the future.

Thank You,

Janet,

Lunderstand it's a lot of data to filter through so I will review both files and get back to you tomorrow. Your proposed corrections might be spot on but I won't know until I compare it to the original data.

We cannot upload the files for a company but whoever sets up your computers can load a FTP transfer program and set it up so you can send the files as needed.

You might be able to add them to the KSS transfer file in the scale systems as well. They'll pop over with the next day's transfer.

Thanks, Greg

Subject: all corrections **Importance:** High

Greg, I never got a response from you as to what else needed correcting on the attachment you sent yesterday. All of the "no errors" have been deleted. I have tried to find everything needed in the Shipper Tran No column however, I never rec'd an explanation from you what was supposed to be there.

I noted several had the same ticket # on SiteTranNo and ShipperTran No. If the SiteTranNo had a K2 ticket #, I entered the same ticket # on the ShipperTranNo as seen on other entries.

Hopefully this is correct. It does need uploaded into the PSC I suppose. I cannot do this and do not know if anyone in our organization can do this. I am hopeful you can do this for us, with the attached spreadsheet. We started with a high number of errors because this went back to 2/1/2018 and all were submitted at the same time. The PSC sent combined reporting which made for more work for me, but I finally got through it all.

Please advise if we have anymore errors once these corrections are uploaded.

Thanks so much,

Janet Ransom

Subject: RE

Hello Janet,

Can you send me a copy of the records you have corrected? Are you able to submit them through the ftp site?

I spoke to KC at Orchard, we reviewed some of transactions with invalid permits. He believes he has a handle on correcting the permit ID's in the truck profiles at Orchard.

There are multiple issues within the 1600 records, these three records are a small sample. They indicate the shipper is K2 and the receiver is Orchard. There's no ticket numbers following K2's ID in the second field, the source of the transaction is "R" indicating Orchard but the file name(last column) indicates it was created by the K2 scale. At a glance it would appear the K2 scale is trying to create a receiving record for a shipment they sent to Orchard. I doubt it but it could be an inbound load from the 58 mine. These records would also be flagged as duplicate shipper trans numbers.

Subject:

Davis, I have corrected the permit ID's, to the best of my knowledge anyway. This is combined- K2 to Orchard and also Orchard rec'd in one email. That is why they are showing "Duplicate Shipper Tran No found on another transaction" because they are the same truck loads with different time stamp (due to travel time from K2 to Orchard) but same Id and date. The SiteTranNo and ShipperTranNo seem to be from-to id's

The ShipperTranNo should be the State ID for the loadout etc and behind it the ticket number from out plant. Because these two reports are mingled together, even though from 2 different loadouts, I do not know what else needs corrected and what is duplicated.

All of the permit-ID's are correct I believe. I have deleted all "none" in the error column. Im sending this back to Greg (cc here) to see what else we need to do.

Greg, please advise what else needs to be corrected please.

Thanks

Janet

Subject: Settlement of Pending PSC Cases

Thank you for calling me back yesterday on these outstanding cases.

As you are aware, the Commission opened up five (5) cases involving your related companies:

Bluestone Industries, Inc. Chestnut Land Holdings, LLC Kentucky Fuel Corporation NUFAC Mining Company, Inc. Orchard Coal Company

Each case has two (2) separate claims except for Orchard which is only subject to the "Show Cause" claim.

The first claim is the "Show Cause" claim which asks you to tell the Commission why it shouldn't pursue the amount owed in the appropriate Circuit Court. The amounts owed are fines from NOVs that have previously been prosecuted and are now final orders of the Commission.

The second claim is a "General Investigation" claim involving the failure to report tonnage for transport on crts roads. The Commission wants to determine how much is owed by each company (other than Orchard) for using the crts roads to transport coal for the time period July 1, 2015 through June 30, 2018.

The "Show Cause" claim total is \$160,512.00 and includes two additional NOVs that became final after the Commission entered its orders:

Bluestone Industries, Inc.

 NOVs per order:
 \$13,600.00

 Settlement Agreement
 \$35,012.00

 Total
 \$48,612.00

Chestnut Land Holdings, LLC

NOVs per order: \$2,400.00 Total \$2,400.00

Kentucky Fuel Corporation

NOVs per order: \$4,300.00 Total \$4,300.00

NUFAC Mining Company, Inc.

 NOVs per order:
 \$58,800.00

 Additional NOV:
 \$ 5,700.00

 Total
 \$64,500.00

Orchard Coal Company

 NOVs per order:
 \$35,000.00

 Additional NOV:
 \$5,700.00

 Total
 \$40,700.00

Bluestone Industries, Inc. 48,612.00
Chestnut Land Holdings, LLC 2,400.00
Kentucky Fuel Corporation 4,300.00
NUFAC Mining Company, Inc. 04,500.00
Orchard Coal Company 40,700.00
Grand Total \$160,512.00

The Companies may resolve the "Show Cause" claim by paying to the Commission the amount due and owing as shown above and in the Commission's orders.

The "General Investigation" claim may be resolved by providing the data needed to calculate the tonnage transported on the crts roads so that the fee can be calculated. Once the fee amounts are calculated, the Companies would need to pay the amounts owed. Data requests are being sent to obtain that information.

Please do not hesitate to contact me should you have any questions regarding these matters.

Subject: RE: PSC reporting

Hello Chris.

I haven't had time to review the records in detail so I'm speaking in general. It appears 948 Shipping (K2) records and 954 receiving (ORCH) records posted in our data base at 11:30 am yesterday. Of the 1903 records only 448 (24%) were accurate or matched up. To put that in perspective the industry averages 98 or 99%. Worked..... I'm not ready to say it worked but records were transmitted. There is another 37 receiver records that posted this morning at 10:30. I suggest updating every truck profile including the CRTS permit number in the data collection (scale) systems.

Davis says he will provide us a list of three people for each site, the list will include their email address. Once we receive the lists each person should receive an email every Wednesday containing transaction counts received by the WVPSC for the previous week. If those numbers don't match the scale data on your end or there's a high incomplete rate, there's a problems. One of those site representatives should immediately contact our office in an effort to resolve the matter before inspectors find the issue at a later time. Inspectors will periodically contact the sites to resolve missing, mismatch or inaccurate data issues as well. When that happens it is important those issues are corrected in a timely manner.

If you have any questions or concerns please feel to contact us at anythime.

Take Care, Greg

18-1077-COAL-SC-GI and 18-1074-COAL-SC-GI motion for continuance

Counsel and Ms. Wilson,

Late today, the Commission received a motion for continuance filed by Stephen Ball, counsel for both Chestnut Land Holdings LLC and Orchard Coal Company, both set for hearing tomorrow, Tuesday, October 16. The Commission was not available to rule on the motion today.

I telephoned Mr. Ball to let him know that the hearings would convene as scheduled and that he could support his motion at that time.

He indicated that he was unlikely to attend.

Hello Ingrid and Caroyn,

Attachment is a copy of the request for a hearing filed by Chestnut Land Holdings, LLC original in case no. 19-5012. Submitted to the Commission on January 25, 2019.

After further review and consideration their General Council would like to withdraw their request for a hearing. Please review the correspondence (below) from Tom Ashton Associate General Counsel for the Bluestone Energy Group which is the parent company of Chestnut Land Holdings', LLC.

Is his email sufficient documentation to have the request for a hearing withdrawn?

If not, please let me know what additional correspondence is needed or feel free to contact Mr. Ashton yourself.

Have a great day,

Thank You.

EXECUTIVE SUMMARY: PAGE 1

ISSUE 1: PAGE 3

The Division of Highway's Annual Report to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Does Not Include Statutorily Required Information, Including Information Regarding the Cost to Maintain the CRTS and the Amount of Undue Road Damage Caused By It.

APPENDIX A: PAGE 13
Transmittal Draft Letter

APPENDIX B: PAGE 16 Objective, Scope, & Methodology

APPENDIX C: PAGE 17
Public Service Commission Response

APPENDIX D: PAGE 29
Department of Transportation Response

Executive Summary

The Legislative Auditor conducted this audit of the Coal Resource Transportation System (CRTS) pursuant to W.Va. Code §4-2-5. The objective of this review was to determine whether the West Virginia Division of Highways is in compliance with West Virginia Code's periodic reporting requirements for the CRTS.

Frequently Used Acronyms in This Report

CRTS: Coal Resource Transportation System

CRTRF: Coal Resource Transportation Road Fund

CMVW: Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee

CRTDC: Coal Resource Transportation Designation Committee

DOH: Division of Highways

PSC: Public Service Commission

Report Highlights

Issue 1: The Division of Highways' Annual Report to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Does Not Include Statutorily Required Information, Including Information Regarding the Cost to Maintain the CRTS and the Amount of Undue Road Damage Caused By It.

- The DOH is not including any of the required statutory elements in its annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The elements include the following:
 - o Citations issued for violations of this chapter;
 - o Disposition of the violations;
 - o Road conditions and maintenance;
 - Amount of undue road damage attributable to coal resource transportation road system use.
- ➤ While DOH acknowledges that CRTS roadways sustain more frequent damage and are more costly to repair and maintain, it neither tracks nor reports any information related to the amount of undue damage to these roadways or the costs to maintain them.

Recommendations

- 1. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 2. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 3. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways begin separately tracking and reporting data related to the costs to maintain and repair roads and bridges on the Coal Resource Transportation System.

Post Audit's Response to the Agency's Written Response

On July 17, 2019, Post Audit received a written response from the Chairman of the Public Service Commission (Appendix C). The PSC indicates no disagreement with the report and offers many benefits of the CRTS. The PSC also includes in its response a recommendation that the Legislature consider sunsetting the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee and requiring the PSC and DOH respectively provide annual reports directly to the Legislature.

The Legislative Auditor provided a draft copy of the report to the DOH and held an exit conference on Tuesday, July 16, 2019. The DOH acknowledged the statutory requirement to include the elements discussed in this audit report and indicated that it will do so moving forward. The Department of Transportation (DOT) provided a written response on July 18, 2019 (Appendix D), indicating its belief that tracking and reporting costs associated with maintenance of the CRTS "is of little, if any, benefit." Furthermore, DOT indicates that it would support legislation to repeal the legislative requirement to report data related to the CRTS.

Issue 1: The Division of Highways' Annual Report to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Does Not Include Statutorily Required Information, Including Information Regarding the Cost to Maintain the CRTS and the Amount of Undue Road Damage Caused By It.

Issue Summary

During the ongoing audit of the Public Service Commission (PSC), the Legislative Auditor became aware of specific responsibilities the Division of Highways (DOH) has pursuant to W.Va. Code regarding the Coal Resource Transportation System (CRTS). Based on this information, the Legislative Auditor conducted an analysis that sought to determine whether the DOH is in compliance with applicable state law as it relates to the CRTS. In addition, the Legislative Auditor sought to evaluate the CRTS's revenues against the expenditures required to repair and maintain CRTS roadways.

The Legislative Auditor's review identified the following issues with respect to the CRTS:

- 1. The DOH is not including any of the required statutory elements in its annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The elements include the following:
 - Citations issued for violations of this chapter;
 - Disposition of the violations;
 - Road conditions and maintenance;
 - Amount of undue road damage attributable to CRTS use.
- 2. While DOH acknowledges that CRTS roadways sustain more frequent damage and are more costly to repair and maintain, it neither tracks nor reports any information related to the amount of undue damage to these roadways or the costs to maintain them.

The Legislative Auditor recommends that the DOH comply with W.Va. Code and include in its annual reports to the CMVW all of the statutorily required elements. In addition, the Legislative Auditor recommends the Legislature consider revising W.Va. Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the CMVW. Further, the Legislative Auditor recommends that the DOH track and report the specific costs to repair and maintain CRTS roadways and bridges.

The Legislature Enacted the Coal Resource Transportation Road System in an Effort to Stay Competitive in the Coal Industry by Reducing Transportation Costs.

In 2003, the Legislature concluded that since coal has been a viable resource that led to a surge in the State's growth and economic potential, the implementation of a system that aids in the extraction, transportation, and exportation of coal would provide benefit and vitality to the rural communities of West Virginia. That same year, the CRTS was implemented to reduce transportation costs in an effort to stay competitive in the coal industry. As of November 2018, the CRTS encompassed approximately 2,192 miles of road and 765 bridges in 19 counties.

The program was enacted with the following objectives:

- To ease the financial burdens of the coal industry by providing an efficient medium to reduce transportation costs by allowing excess loads to be hauled on identifiable roadways throughout the State;
- Reduce the pressures to transport coal over extended hours and increased speeds;
- Help sustain the coal industry as an integral economic and societal force in West Virginia.

As a result, economic incentives such as reduced transportation cost, lessened hours for drivers, and the capacity to transport more coal are realized by allowing coal trucks to carry loads in excess of the legal limit of 80,000 pounds.

State-maintained roads and public highways are the primary method of transportation for coal-hauling vehicles on the CRTS. The maximum vehicle gross weight for coal trucks on the CRTS range from 80,000 to 120,000 pounds with a tolerance of five percent, based on axle configuration. Figure 1 below provides a breakdown of those limits.

C	RTS Weight Lin	Figure nits by Trucl	e 1 «Type and Number of	Axles
Type of Truck	Number of Axles	Maximum Weight (lbs)	Maximum Weight With 5% Tolerance (in lbs)	Annual Specia Permit Fee (\$)
Single Unit	1 Steering Axle, 2 in Tandem	80,000	84,000	\$100
Single Unit	1 Steering Axle, 3 in Tridem	90,000	94,500	\$160
Tractor- Semitrailer	5 Axles	110,000	115,500	\$300
Tractor- Semitrailer	6 or More Axles	120,000	126,000	\$500
ource: West Virg	ginia CSR §150-27-3.			

Simply stated, the tolerance accounts for variances in load that are difficult to accurately measure, which gives coal transportation vehicles flexibility concerning the weight of the load

being hauled. Special permits are issued based on the number and combination of axles a vehicle has and contain a corresponding maximum gross vehicle weight.

The Public Service Commission (PSC) and Division of Highways (DOH) received statutory authority from the Legislature to oversee the implementation and administration of CRTS. The DOH was delegated with establishing all legal vehicle road weight limits for all public highways, including roads within the CRTS. Specifically, the statutory requirements of the PSC were to administer the CRTS permitting program and enforce the provisions of Senate Bill 583 (SB583), which includes the collection of fee monies, enforcement of administrative sanctions (e.g., reporting and weight violations), and to ensure proper reporting requirements for shippers/receivers. Fee monies collected from permitting and 5-cent tonnage fees are remitted to the Coal Resource Transportation Road Fund (CRTRF), which is a special revenue fund administered by the DOH to supplement repairs and maintenance of roadways and bridges in the CRTS.

State-maintained roads and public highways in certain counties are eligible to qualify as part of the CRTS.¹ In 2005, legislation was enacted that created the Coal Resource Transportation Designation Committee (CRTDC) whose responsibility is to approve the designation of additional coal resource transportation roads not located within the counties of Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Wayne, and Wyoming. Additions to the CRTS can be made by companies requesting to include additional segments of state-maintained roads and are subject to an application process with a corresponding \$5,000 fee.

Enforcement of the weight limits on the CRTS is governed by the CRTS Section of the Transportation Division within the PSC. PSC Utilities Inspectors are tasked with conducting site inspections, reviewing data and documentation for the electronic reporting system, and visual inspections of weight scales at shipper and receiver sites. Also, PSC Weight Enforcement Officers, although not classified as staff in the CRTS Section, monitor the daily activity of weight enforcement at designated weigh stations across the State.

Division of Highways Annual Reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee Do Not Include Statutorily Required Information.

In an effort to examine the costs and benefits associated with operating on coal resource transportation roads, W.Va. Code §17C-17A-3 requires the DOH to provide periodic reports to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW). The CMVW was established with the purpose of studying the implementation of the commercial motor vehicle weight and safety enforcement program and the effects of excess loads on roadways. To ensure comprehensive advisement under this article, the committee is to be comprised of appointed state employees from state agencies and members of the West Virginia Legislature. The reports are to include the following information:

¹ Counties included are Boone, Fayette, Lincoln, Logan, McDowell, Mercer, Mingo, Raleigh, Wayne, Wyoming, Braxton, Webster, Ohio, Greenbrier, Clay, Nicholas, Summers, and Kanawha.

(1) Citations issued for violations of this chapter; (2) disposition of the violations; (3) road conditions and maintenance; and (4) the amount of undue road damage attributable to coal resource transportation road system use.

The Legislative Auditor reviewed these reports, provided on an annual basis by DOH to the CMVW, from 2015-2018. The DOH has not included any statutorily required data as required under the provisions of W.Va. Code §17C-17A-3 in its reports. The lack of information provided in this report makes it difficult for analyses to be conducted on CRTS operations to determine its effectiveness.

Citations

Noncompliance with applicable laws and regulations on the CRTS are met with the issuance of citations, commonly referred to as violations. Violations may be issued for numerous reasons but are most commonly issued on the basis of (1) overweight and (2) reporting violations. Overweight violations are issued when trucks are hauling loads in excess of the legal limit. Alternatively, reporting violations occur when drivers, shippers, or receivers fail to adhere to the reporting requirements for shipments on the CRTS.

Disposition of Violations

Violations are differentiated by their disposition, or what happened as a result of a violation being issued. The disposition of a violation contains identifying attributes which makes each violation unique. For each violation issued by enforcement officers (or other comparable law enforcement) on the CRTS, the disposition must include specific information to differentiate one violation from the next. These identifying attributes are stored internally in a data management system which allows internal users to produce reports that assist in maintaining efficient and effective enforcement on the CRTS.

W.Va. Code mandates that the disposition of CRTS violations must be included in the DOH's report. However, W.Va. Code does not clarify what information regarding dispositions must be reported. The statute's broadness and ambiguity leave reporting dispositions open for interpretation. As a result, the State's ability to collect, assimilate, and report on CRTS operations may be hindered by a lack of usable information. Therefore, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported.

The Legislative Auditor's Office was provided with data relating to the violations in the *Notice of Violations* by the PSC or other law enforcement, which is a comprehensive listing of all violations and their identifying attributes. The following attributes are reported with each violation:

- > Date Issued
- > Respondent Parties
- Case Number
- > Site

- ➤ Sum of Adjustments (\$)
- ➤ Latest Payment Date
- ➤ Balance Due (\$)
- > County

The Legislative Auditor's examination indicated that none of the above-mentioned attributes were included to provide an accurate disposition of the violations. This may be due, in part, to the shared responsibilities of the PSC and DOH.

The PSC is statutorily required to enforce the provisions of W.Va. Code on the CRTS. Conversely, reporting CRTS-related operations—as it relates to the CMVW—falls under the purview of the DOH. Because enforcement of the CRTS is under the purview of the PSC, the DOH may not have readily available access to the required information.

Further, the Legislative Auditor determined that the DOH's annual reports include information regarding its current and future obligation of funds from the CRTRF, but does not include comprehensive information regarding the amount of undue damage caused by coal transportation on the CRTS or any information regarding the total cost of repairs for CRTS roadways. While the DOH is able to provide an estimated cost per bridge, there is no data provided for actual roadways. Therefore, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.

The Division of Highways Routinely Expresses Concerns Over Insufficient Program Revenues and Its Inability to Ensure Proper Maintenance and Repair. However, It Does Not Track or Report Any Specific Cost Data.

In each annual report reviewed by the Legislative Auditor, the DOH expresses its conclusions and concerns with the operation of the CRTS. From 2015-2018, the DOH routinely indicated that its major concern was the sufficiency of revenues to maintain the CRTS. According to the 2018 report:

[It] is clear that the financial resources needed for highway and bridge maintenance on the CRTS exceed the amount of dedicated funds available for that purpose. At this rate, it would take approximately 20 years to replace or repair the programmed CRTS bridges using only CRTS revenues.

Damage to roads and bridges on the CRTS can be attributed to two primary factors:² excessive loading of trucks and the speed at which those trucks travel. As loads in excess of the legal limit increase in frequency, diminished road conditions become a primary safety concern for motorists, and, ultimately, the State. Because public safety is a chief concern of all state-run

² Excluding common factors inherent to non-CRTS roadways and bridges.

programs, inclusion of the road conditions noting deterioration and degradation of roadways and bridges used in the transportation of coal must be accurately represented so that remedial measures can be implemented.

In general, roads and highways utilized for transportation of excess weights have a thicker overlay of pavement to account for increased loads. The overlay—made of composite material—helps to ensure that roadways are structurally sound to withstand increased load weights. However, increased weights disproportionately augment damage to roadways relative to the increase in weight hauled by large vehicles. Damage does not increase proportionally with the increased weight, but rather, damage increases exponentially. This requires more frequent and costly maintenance compared to regular state-maintained roads. Consequently, these conditions result in increased maintenance costs that are incurred by the State.

Moreover, the Legislative Auditor determined that roads designated for use in the CRTS make up a significant proportion of all roadways in many southern counties. As Figure 2 below demonstrates, CRTS road-miles in Boone, Logan, McDowell, Mingo, and Wyoming counties account for over 30 percent of the total road-miles in each of those respective counties, and more than 40 percent of all road-miles in Boone, McDowell, and Mingo counties.

Manual

West Common State

Section Sec

Figure 2. CRTS Road-Miles as a Percent of Total County Road Miles

The Legislative Auditor requested and analyzed revenue and expenditure data relating to the CRTS operations. The CRTS has generated an average annual revenue stream of approximately \$3 million, totaling \$44 million, over the life of the program since 2003. Revenues are comprised of special permit fees, 5-cent tonnage fees, and donations provided by coal companies from 2003-present.³ Of the four sources, 5-cent tonnage fees account for the majority of revenue—approximately \$28 million or 64 percent—attributable to the CRTRF, over that same period. The other sources of revenue account for the remaining \$16 million or 36 percent of CRTRF funds. Figure 3 provides a percentage breakdown of CRTRF funds attributable to the revenue streams mentioned.

| Special Permit | Federal-aid | Reimbursement | \$3,091,618 7% |

Figure 3
Percent of CRTRF Funds Attributable to Revenue Streams

Source: Figures derived from the 2018 report to CMVW.

Since the program's inception, CRTRF revenues have experienced considerable annual fluctuations, most notably since 2013. Annual revenues exhibited a high of \$4.04 million in 2013 and a low of \$1.68 million in 2016, representing a decrease in revenue of approximately 58 percent, and also totaling the lowest annual revenue inflow since the program was enacted. Annual revenues are displayed in Figure 4 below.

³ Federal-aid reimbursement is a fourth source of funds; however, it is not considered a primary source.

And the second s

AMOUNT (IN MILLIONS)

	RTS Revenue 2005-201
Year	Annual Revenue
2005	\$3,760,000
2006	\$3,330,000
2007	\$4,020,000
2008	\$4,010,000
2009	\$3,440,000
2010	\$2,780,000
2011	\$3,900,000
2012	\$3,700,000
2013	\$4,040,000
2014	\$2,340,000
2015	\$2,110,000
2016	\$1,680,000
2017	\$1,840,000
2018	\$2,130,000

YEAR

The Legislative Auditor requested expense records from the DOH for maintenance projects conducted on CRTS roadways to compare program revenues to the cost to repair and maintain CRTS roads. However, **DOH officials indicated that they neither maintain separate records for maintenance on coal resource transportation roads nor maintain cost data for repairs on the CRTS compared to other non-CRTS state-maintained roads.**

Although the DOH cannot provide an estimated cost to repair coal resource transportation roads, it does provide an estimated cost to repair bridges encompassed in the CRTS.

		Figure 6 Incre	ase in Bridge (Costs		
Year	Bridges Scheduled for Repair/ Replacement	Estimated Average Co Total Repairs Per Bridge		Increase in Total Cost from Base Year	Increase in Average Cost from Base Yea	
2015	29	\$25,700,000	\$900,000	-	-	
2016	29	\$30,100,000	\$1,150,000	17%	28%	
2017	34	\$53,100,000	\$1,500,000	107%	67%	
2018	44	\$62,000,000	\$1,400,000	141%	56%	

A review of available data provided by the DOH in annual reports to the CMVW disclosed estimated bridge repair costs have steadily increased from 2015 through 2018. As shown in Figure 6 above, 2015 had an estimated total bridge cost of \$25.7 million with each subsequent year increasing in total cost, ending with 2018 exhibiting an estimated total bridge cost of approximately \$62 million. This equates to a 141% increase in estimated total bridge costs from 2015 to 2018.

A comparison of CRTS-related expenses to normalized state-maintained road expenses would allow a cost multiplier to be reasonably calculated. A cost multiplier would provide a simple way of comparing expense costs on CRTS roads and non-CRTS roads. However, due to the lack of sufficient data for measurable comparisons, the Legislative Auditor was unable to determine how total CRTS maintenance compares to general road maintenance on state-maintained roads that prohibit the transportation of excess loads.

The Legislative Auditor acknowledges that fee revenues generated by the CRTS were intended by the Legislature as a financial supplement, not as a standalone means to fully support the CRTS. However, the Legislative Auditor concludes that it is prudent to separately track and report the costs associated with repair and maintenance of CRTS roadways and bridges given the amount of state funds that are appropriated to the DOH for road maintenance and the continued concern expressed by the DOH regarding these expenses. This would allow the CRTS program to evaluate any potential increase in the maintenance costs for these roads against the adequacy of the funds generated in the CRTRF to supplement those costs. **Therefore, the Legislative Auditor recommends that the DOH begin separately tracking and reporting data related to the costs to maintain and repair CRTS roads and bridges.**

Conclusion

The Coal Resource Transportation System is made up of nearly 2,200 miles of roadways, predominantly comprising southern West Virginia's secondary roads. For some counties, CRTS road-miles account for close to half of the total road-miles in the county.

While it is widely acknowledged that the increased weight limits for coal hauling along these roads exponentially increases the damage they sustain, thereby increasing the costs of maintenance and repair, the DOH currently does not track these increased costs. Moreover, important data regarding activities on the CRTS are not being reported to the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee, as required under current law.

On July 18, 2019, the Cabinet Secretary for the Department of Transportation responded to the findings of this report indicating that, "the DOT feels that the reporting of cost data for maintenance and repair pertaining to those routes included in the CRTS is of little, if any, benefit to the public or the Legislature." The DOT acknowledged, however, the current statutory requirement to include the elements discussed in this audit report and indicated that it will do so moving forward.

Recommendations

- 1. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways comply with West Virginia Code §17C-17A-3 to include the required information in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 2. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Legislature consider revising West Virginia Code §17C-17A-3 to provide clarification as to which disposition information is required to be reported in the annual reports to the Commercial Motor Vehicle Weight and Safety Enforcement Committee.
- 3. If the Legislature maintains the reporting requirements, the Legislative Auditor recommends the Division of Highways begin separately tracking and reporting data related to the costs to maintain and repair roads and bridges on the Coal Resource Transportation System.

Byrd E. White, 111, Cabinet Secretary West Virginia Department of Transportation State Capitol Complex Building 5

Dear Cabinet Secretary White:

This is to transmit a draft copy of our report on the Coal Resource Transportation System. This report is tentatively scheduled to be presented during the Tuesday, July 23, 2019 interim meeting of the Post Audits Subcommittee, which is currently scheduled for 10:00a.m. in the Senate Finance Committee Room (451-M). We recommend that you send a representative from your agency to the meeting to respond to the report and answer any questions committee members may have during or after the meeting.

If you would like to schedule a meeting to discuss any concerns you may have with the report, please notify Terri Stowers, Executive Administrative Assistance, at 304-347-4880 by Friday, July 12, 2019. In addition, we would like to extend the opportunity to you to provide written comments on the report. We will need any written response by noon on Wednesday, July 17, 2019 in order for it to be included in the final report. Thank you for your cooperation.

Sincerely,

Justin Robinson Director

Objective, Scope, and Methodology

The Post Audit Division within the Office of the Legislative Auditor conducted this review as authorized by Chapter 4, Article 2, Section 5 of the *West Virginia Code*, as amended.

Objectives

The objective of this review was to determine if the West Virginia Division of Highways (DOH) is in compliance with the West Virginia Code requirements with respect to its periodic reports on the Coal Resource Transportation System (CRTS). In addition, the objective sought to determine what data the DOH maintains on the specific costs of repairing CRTS roads and bridges.

Scope

The scope of this review consists of all DOH reports to the Commercial Motor Vehicles Weight and Safety Enforcement Advisory Committee between 2015-18. The scope involved interviewing select staff with PSC and the DOH. The audit staff will not attempt to make any determination regarding expenditures of monies collected for the Coal Resource Transportation Road Fund.

Methodology

Post Audit staff gathered and analyzed several sources of information and assessed the sufficiency and appropriateness of the information used as evidence. Testimonial evidence was gathered through interviews with various agencies that oversee, collect, or maintain information. The purpose for testimonial evidence was to gain a better understanding or clarification of certain issues, to confirm the existence or non-existence of a condition, or to understand the respective agency's position on an issue. Such testimonial evidence was confirmed by either written statements or the receipt of corroborating or physical evidence.

Audit staff analyzed various source documents that were either provided by the PSC, the DOH, or publicly available on the web. In addition, information was obtained using the State Auditor's website.

We conducted this performance audit in accordance with generally accepted government auditing standards. Those standards require that we plan and perform the audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

Appendix C

Comments on Legislative Auditor Report on the Coal Resource Transportation System

Charlotte R. Lane, Chairman Public Service Commission of West Virginia

Tuesday, July 23, 2019 10:00 a.m. – 12:00 p.m. Senate Finance – 451M

Public Service Commission of West Virginia Response to Legislative Auditor Report on Coal Resource Transportation System Presenter – Charlotte R. Lane, Chairman

Thank you for the opportunity to respond to the Legislative Auditor's report on the Coal Resource Transportation System (CRTS).

- The Commission fulfills its delegated duties under the CRTS statutes, <u>W. Va. Code</u> §§17C-17A-1 *et seq.* and 17C-17B-1 *et seq.*
- CRTS is a successful program. Benefits of the CRTS laws include increased public safety for citizens who reside along and share CRTS roadways and for truck drivers. By reducing gross weights of coal trucks, CRTS has also decreased damage to state roads and bridges. The program has generated \$38.9 million from operators using CRTS routes. It has also resulted in another \$2.2 million in donations made to DOH in order to upgrade roads that companies wish to add to the CRTS system.
- The CRTS provides an administrative sanction process to address violators. Administrative sanctions are applied to coal operators and transportation companies, thus holding both accountable. The program also helps to ensure compliance with other state and federal agencies by verifying that a company has a valid contract, business license and insurance; that it is registered with the Commission; and that it is properly permitted by other agencies before issuing a CRTS permit.
- CRTS code mandates coal companies submit daily electronic filings containing detailed data of coal shipments, including the gross vehicle weight of every shipment. This data enables the Commission to deploy Enforcement Officers to routes that are identified as problem areas, which improves the safety of those roadways. This information has also decreased the amount of time Enforcement Officers must spend weighing coal shipments, which increases the time they can spend on other enforcement duties.
- The Commission-appointed member of the Commercial Motor Vehicle Weight and Safety Enforcement Advisory Committee (CMVW) chairs and attends the quarterly meetings of CMVW. At that meeting, the PSC provides all attendees with a summary

report of notices of violation (NOV), citations issued, sanctions issued, sanctions dismissed, sanctions collected and the number of final orders issued. The Commission also provides a breakdown of the number of NOVs issued by county. The Commission has additional specific background data on the issued NOVs and citations, and can provide that to DOH or to the Legislature.

- Attached is an example of Commission reporting to the CMVW.
- The original purpose of the CMVW was to receive and address citizen complaints related to coal truck traffic. The committee worked diligently during its early years to develop protocols that have grown into the efficient and effective system that is today's CRTS. Because those efforts were so successful, citizen complaints have now decreased to a level that indicates that such oversight is no longer necessary. Therefore, we respectfully suggest that the CMVW be sunsetted, and that the DOH or PSC, as applicable, report annually to the Legislature.

WEST VIRGINIA DEPARTMENT OF TRANSPORTATION

1900 Kanawha Boulevard East • Building Five • Room 109 Charleston, West Virginia 25305-0440 • (304) 558-0444

Byrd E. White, III Cabinet Secretary

July 17, 2019

Mr. Aaron Allred Legislative Manager West Virginia Legislature Joint Committee on Government and Finance Room E-132 1900 Kanawha Boulevard, East Charleston, West Virginia 25305-0610 LEGISLATIVE MANAGER

JUL 1 8 2019

Dear Mr. Allred:

Thank you for your letter, dated July 16, 2019, requesting the position of the Department of Transportation (DOT) regarding certain data requirements associated with the Coal Resource Transportation System (CRTS).

As discussed with personnel of your Post Audit Division staff on July 16, 2019, the DOT feels that the reporting of cost data for maintenance and repair pertaining to those routes included in the CRTS is of little, if any, benefit to the public or the Legislature. Maintenance work performed along CRTS routes generally is no different than that performed along non-CRTS routes of the same functional classification. Legislative changes that would eliminate these CRTS reporting requirements would be supported by the DOT.

The DOT appreciates your assistance with this matter. If additional information is needed, please feel free to contact my office.

Sincerely,

Byrd E. White, III

Secretary of Transportation
